SC14 DOE Booth Planning Telecon
6/17/14

Participants:
Nathan Humeston, Ames
Beth Cerny, Argonne
Clementine "Clemmie" Jones, Fermilab
Jon Bashor, LBNL
Blaise Barney, LLNL
Avi Purkayastha, NREL
Jayson Hines, Jeff Gary, ORNL
Charity Plata, PNNL
Tom Ansley, Andrew Kail, Savannah River
Karen Haskell , Sandia
Dave Lund - Group Delphi

Agenda:
Future Telecons
Committee Organization
Booth Program
Updates

Future Telecons
The group decided that Tuesdays are a good day, but that starting one hour earlier would allow more people to attend. The next telecon, on July 1st, and future calls will start at 12 p.m. Pacific, 1 p.m. Mountain, 2 p.m. Central and 3 p.m. Eastern. Call-in information will remain the same: 1-866-833-2126; passcode 3333596#

Committee Organization
Jon suggested that the committees for Booth Design, Booth Program and Communications could be slightly realigned as some of the tasks overlapped.
Beth said that since we are now in our second year, a lot of the planning should be easier. The consensus was to keep the current organization. The following people volunteered to be on these committees:
Booth Design: Dave Lund, Jon, Parks, Blaise
Booth Program: Blaise, Jayson, Avi and Karen
Communications: Beth, Jayson, Jeff, Blaise and Jon

For reference, the committee members from the SC13 booth and their roles/email list memberships is attached at the end of these notes.

Booth Website
Beth volunteered to host the booth website on a research server at ANL. The server will be more easily accessible for posting.

Booth Program
Jon said that he heard there is an expectation that at least one of the nine planned DOE data demos will include a booth presentation. It is still not clear if the demos will be held in the booth. Jon has asked two ESnet staff involved it in the demos to keep him posted on requirements. The working list of demos is at:
https://ornlwiki.atlassian.net/wiki/display/DSDSC/DOE+SC+Data+Science+Centers

Updates
Karen said that Sandy Portlock will be joining Sandia's planning team.

Karen also asked about participating in the Student Job Fair at SC14. After the call, Jon sent out a blurb that will also appear in the SC14 July newsletter.

The next call will be on Tuesday, July 1, at at 12 p.m. Pacific, 1 p.m. Mountain, 2 p.m. Central and 3 p.m. Eastern. Call-in information number is 1-866-833-2126; passcode 3333596#
